Paul:

Thank you for taking the time to speak with me this morning.

Per our conversation, I would like to request a 30 day extension (to November 10, 2013) on compliance for waste removal and filling in bore holes. I am currently negotiating with appropriate vendors and am in the process of arranging for field testing of chemicals present. Please confirm that this extension is acceptable and is granted.

We are also presently in the process of finalizing proposals from mining companies and need at least 30 additional days (to November 10, 2013) to update you on the status of transferred or new surety.

Small are drainage problem we would request an extension until March 30, 2014. We will take care of the maintenance issues in conjunction with restarting of the production.

Please let me know if the forgoing meets with your approval.

Please consider this e mail as approval to your request.

I believe we have coordinates for the drill holes, but our GIS specialist won't be able to get me the information until Monday. I'll let you know as soon as I can.
